Summary - This Bigfoot Adventure Challenge and Lemurian Classic route is a can't miss for the rider wanting an all of Swasey Red and some of Whiskeytown NRA challenge. The rider can expect some of everything (green, blue and black level trails) from long classic Swasey climbs to rocky and challenging old school Whiskeytown climbs and descents before coming back to arguably the best descents Swasey has to offer in the Snail, Terminator and Enticer trails. Note that new this year, the Cosmos Climb is out in favor of the brand new Igo Trail climb.
